

Sex Survey 2018

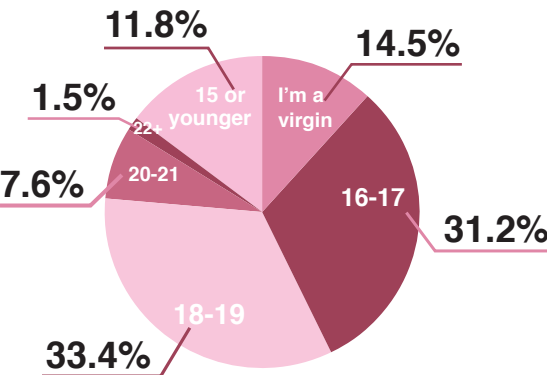

We received 995 responses to our 2018 Sex Survey. Our survey was distributed via Facebook and accepted responses for nine days. Not every student who participated in the survey responded to every question, and we have noted the number of students who responded to individual questions in the chart for each question. The results reported here have been edited for clarity and the percentages have been rounded to the nearest tenth.

995 responses
